<b>D</b>			<b>Q</b>		
<b>E</b>			<b>R</b>		
<b>F</b>			<b>S</b>		
<b>G</b>			<b>T</b>		
<b>H</b>			<b>U</b>		
<b>I</b>			<b>V</b>		
<b>J</b>			<b>W</b>		
<b>K</b>			<b>X</b>		
<b>L</b>			<b>Y</b>		
<b>M</b>			<b>Z</b>		

# Objectives for the day

By the end of the presentation, you should be able to:

- Identify methods of cataloging, collaborating, and sharing resources.
- Generate curricular based ideas for the applications of various Web 2.0 utilities.

# 2.0? When did that happen?!

## Web 1.0

- Slow connectivity
- Privacy concerns for authors
- Read-only files

## Web 2.0

- Faster connectivity
- Built on the ideas of sharing and participating

“To take an example from above, Personal web pages were common in Web 1.0, and these consisted of mainly static pages hosted on free hosting services such as Geocities. Nowadays, dynamically generated blogs and social networking profiles, such as Myspace and Facebook, are more popular, allowing for readers to comment on posts in a way that was not available during **Web 1.0.**”
